

OSP SUITE OF BIOCIDES SOLUTIONS

OSP has access to the majority of the registered oilfield biocides and has a strong network of partner blending facilities in all of the major basins, which allow us to provide very competitive pricing. We are continuously adding to our biocide product line to ensure we have the right solutions for our clients applications. Give us a call to find the right product for your application or initiate a selection study!

CLIENT SUPPORT & COLLABORATION

At OSP, we know our niche, we are very passionate about our work and we are very good at what we do.

We sell data-driven applications, not just biocides. Not only do we offer a full suite of registered oilfield biocides, but we also back up what we sell with microbial expertise to make data-driven decisions.

MICROBIAL TESTING SERVICES

OSP offers comprehensive product support by facilitating:

- ATP Testing
- DNA qPCR
- RNA qPCR
- DNA 16S Sequencing
- Kill Studies,
- Biocide Selection Studies,
- Dosage Optimization Studies
- Program Reviews
- Program Recommendations

COMPLIANCE & EPA REGISTRATIONS

OSP has Master Registrations on many biocides in our Microbial Mitigation Product Line and holds Sub-Registrations on a large number of the widely used oilfield biocides.

We have the ability and are dual sourced on many other registered biocides listed on the next page.
